MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Recruitment Advertising for Life Scientists

REFERENCE : Memorandum to Assistant to the DCI
from DD/S&T dated 23 January 1964

1. This memorandum is for the information of the Deputy Director for Support. The Executive Officer to the Deputy Director for Support requested the Office of Security to provide comments on the referenced memorandum.

2. The proposal of the DD/S&T to advertise for prospective Agency employees goes considerably further in identifying the specific interests of CIA in the field of medical and related sciences than any previous advertisement of which we are aware. In addition, a public advertisement of this nature, at this time, might well arouse publicity and press inquiry as to the reason for this Agency's interest and concern in the field of medical sciences.

3. It is our understanding that a recent issue of the "London Economist" contains an article with specific reference to the Agency's new recruitment brochure which we consider illustrative of the point made in the last sentence of the preceding paragraph. For this reason, this Office does not concur in the proposal made by the DD/S&T and would like the opportunity to review any future proposals for recruitment advertisements, particularly those which delineate the detailed nature and scope of the interests and activities of this Agency.
